Danny, Eric and Monika—

Thank you for your final invoice, sent by Monika yesterday.

We have already told you of how much we appreciate your work. The courtesy with which we were always treated, the experience and knowledge which you brought to bear, and the quality and effort which went into the work were outstanding. We also appreciate that you were willing to take on this project at such a distance from your more usual locations. (But I was happy to hear that your crew was working in Michigan. I think it made Ottawa perhaps seem not quite so far.)

Your people worked hard and carefully, from start to finish, with phenomenal cleanup at the end.

I watched as Eric contemplated what ought to be done here. He conceived of the scope of the project in far better and more creative terms than I would have known to do. You have restored our home as it deserves, and I expect that we will now have far better protection from the blasts of the world.

We also know that the extent of the necessary work was considerably more than any of us knew at the outset.

In appreciation, Debby and I intend to pay \$3,000 more than your invoice amount below. Please advise whether you would like that to be by a separate check, or just added to the check in payment of your invoice.

With gratitude,

Mike and Debby
